Summary of Eastern News.

The Leavenworth *Times* of the 6th contains the following: "Mr. McLane, the President of the St. Joseph Bank, who was shot by the gang who attempted to rob the bank, we see by the St. Joseph papers, is considered by his physician entirely out of danger.

A party of men were prospecting among Black Hills last summer, but were driven off by Indians. They, however, discovered a vast bed of iron ore, samples of which they brought to Denver. An assay of a portion made by Professor Schrimer, has given ninety-two per cent of iron. The assayer also stated that it was the finest iron ore he had seen in the United States. The contemplated line of Pacific Railroad runs within a few miles of these iron deposits. The Black Hills will probably be prospected this summer for gulch diggings, as the number of men on the ground at work for the railrood company, will be sufficient protection against the savages. A party of men who have a contract for getting out railroad ties, left Denver about the 1st of March for the Cheyenne Pass.

We clip the following from the Denver *News* of the 12th: "An enterprising hunter went from Denver down on the Smoky Hill route a few days ago, where he made a successful hunt, bagging fourteen buffalo; some of them being in very fine condition.

The following is a true copy of the notice posted, by the Copperheads of Omaha, in various parts of the city, on the night preceding the election. We publish it for the benefit of the Copperhead voters of Denver. By changing the word Omaha to Denver, they can use the same notice at the coming municipal election:

Notice to
the Negroes of
Omaha City
the first Black man that takes his Stand at the Polles to Vote he will get his head Skinned to the Bone from his Enemy Watch out you god damd black pupy for that pate of yours.

A female contortionist, named Forestelle, is displaying her feats to admiring audiences in St. Joseph. We have heard of dozens of Indian Rubber men, but this is the first India rubber woman that has come under our notice.

Oil has been struck near Lexington, Mo., after persistent and well directed experiments. The well is called the Gaty, and is yielding two hundred barrels per day. The oil region of Missouri is considered by geologists to be a strip of country extending through Carroll, Lafayette and Cass counties, in Missouri, into Miami county Kansas, and that the oil indications in Kansas are as good as in Missouri. These being the facts, as established by scientific men, will no doubt lead to the developement of the oil regions of Kansas and Missouri.

A watchman (whose name we could not learn) was shot at the Government corral, between this city and the Fort, on Tuesday night, by some person, or persons, whose object it was to steal mules. The shot alarmed another watchman, who, upon reaching the spot, found his fellow in the last struggles of death. We are informed that Mr. Levi Wilson has offered a reward of $100 for the capture of the perpetrators of the crime, and that a man by the name of Burnes has been arrested upon suspicion as one of the parties engaged in the murder.

The *Commercial* says nearly all the papers in Chicago, and nine-tenths of the people now believe that the reported drawing of the Crosby Opera House by Mr. Lee, and the reported sale for $200,000, is all gammon. Potter Haime, one of their wealthiest merchants, had previously offered Mr. Lee $350,000, cash.

Several of the prominent Sioux chiefs wintered on the Cache a la Poudre. These, with but few exceptions, bore testimoney, in the presence of citizens, to the cowardice and neglect of officers in the regular army with whom they had dealings and laughingly spoke of the new troops destined for operations against our northern tribes as so much "bait," (booty for the Indians. Will our Government always remain more ignorant as to the true condition of our Indian affairs than the Indian themselves.

The *Gazette* of the 13th says, W. F. & Co.'s stage coach bound West, was upset at Alkali, only yesterday morning, and one lady passenger seriously hurt. Alex. Benham, Esq., was on the coach.

A deserter from Fort Riley was arrested in St. Joseph the other day. He made considerable resistance to the officer who arrested him, but had to cave finally, and then confessed that he was one of the fifty soldiers of the 7th cavalry who deserted from Fort Riley, and have all winter been bushwhacking on the road.

SALMON RIVER.—The Montana *Post* of the 9th contains the following: We had the pleasure of call, yesterday, from Mr. Moore, the Salmon river expressman, who has fortunately survived the perils of his many trips across the ranges between this and that. He reports the trail passable, and about eight hundred miners at Salmon. The latest developements fully confirm the reported richness of the mines. Mr. M. brought out $216 as the result of five hours work with a rocker, on a claim in Sierra gulch. The weather is yet so severe as almost to preclude the possibility of either work or locomotion.

TELEGRAPHIC.—The Western Telegraph Company have appointed Theodore [illegible] of the New York Herald their correspondent in San Francisco to send to the East daily reports of matters and things in California.

A Parallel.

The magnificent project of Louis Napoleon in Mexico has proved a failure. The first day of the present month was the time fixed by himself, under a pressure from our Government, for abandoning poor Maximilian to his fate. It is probable, therefore, that there is to-day not a single French soldier in Mexico. In his recent speech to the French Chambers Napoleon acknowledged at once the purpose of his Mexican scheme and his own disastrous discomfiture. He said:

"The guiding idea of the Mexican expedition was to elevate and regenerate the people; implant ideas of order and progress in their minds, open a vast outlet for our commerce, and leave the recognition of the services to civilization. Such was my desire and yours; but soon the extent of the sacrifices appeared to exceed the interests which called us across the ocean."

Although at the time of the first invasion the ostensible object of Napoleon, with his short lived alliance with England and Spain, was the enforcement of the payment of a trifling debt, owed by Mexico to the subjects of the allies, nobody was deceived by the miserable sham. The real design was the establishment of monarchy, under the protection and control of France, on the American continent and on the southern and western boundary of the United States. If there were any doubt of this, the publication of the instructions of the French Emperor to Marshal Forey, who led the expedition, the subsequent placing of Maximilian on the throne, and this last speech of Napoleon, would have dissipated it. But it has all proved to be a miserable failure and almost a farce.

Napoleon, with all his foresight, as a cotemporary remarks, overlooked one important fact, namely, that there can be no regeneration of Mexico which does not strike at the foundation of the Mexican Church. For long years the ecclesiastical establishment of Mexico has ruled with iron hand the State, and sapped the life-blood of the people. The civil government, if at all distinct from the Church, has been constantly and consistently overborne and controlled by it. The Church has become not merely fat, but bloated. It has aggregated to itself all the wealth of the country. The lands are possessed by it. Its cathedrals and monasteries are decked with jewels wrung from the hard earnings of the people, and its vaults are plethoric with gold and silver. The State was dependent upon the bishops for the very means of existence, and was continually impecunious, while the Church gloried in its wealth. While the Church grew richer and richer each year, the mass of the nation became more and more impoverished. Napoleon ignored all this, and sought to set up his puppet throne and build up the State, without striking at the roots of the Church establishment, the incubus which weighed down the nation.

Juarez, on the other hand, proclaimed independence of the Church, and guaranteed or promised religious freedom. Whether now, that the French have left the field and he will soon be reinstated in the Capital, he will be caught in the toils of the wily ecclesiastics cannot be foretold. If he succumb to them, Mexico will simply revert to her former chronic state of subservience to Church domination, poverty, darkness and despair. If he shall maintain the independence of the State, free from connection with the bishops, secularize the immense landed estates of the the ecclesiastical establishment, and confiscate the ill-gotten Church property, there is hope that Mexico may rise from the ashes. The Church bears him and his adherents no good will, but with the strong hold he has on the affections of the people, the memories they retain of the corruptions, tyrannies and grasping disposition of the monks, he can silence all opposition and crush the Church under the iron heel of progress and constitutional regeneration.

In Utah we have a Church system under the slim disguise of constitutional republicanism not dissimilar, in many respects, from that of Mexico. The Church here owns, or claims to own, nearly all of Utah that is worth owning. We do not now refer to those deeds of consecration exacted from every good Saint, whereby he transfers to the Church, by name, number, and description, all his property, real and personal; but to the fact that the fairest part of the Territory is held and claimed by the Trustee in Trust, just as the beautiful vineyards and leagues of ranches are held by the bishops of Mexico "for the benefit of the faithful." While the people are poor and struggling with unkind fate for a bare subsistence, the Church is rich, and as it grows the richer the mass of the people grow poorer. The choicest lands, the fairest vales, the most valuable mill sites, the most accessible timber canyons throughout the whole Territory, belong to the "Church," or those who are acknowledged as its leaders. The profits accruing out of them, no doubt, go to spread the light of the gospel of true Latter-day Saints over the earth, gather the faithful to Zion, and built up the Temple. [illegible] that may be, the fact stands out [illegible] in Mexico, that the Church is pre-[illegible] over the State, and that it aggregates [illegible] while the people accu-[illegible] poverty.

[illegible] of Church and State (which [illegible] the domination of Church over State,) [illegible] of Mexico, is in the error [illegible]

St. Louis, March 26.

A Republican special from St. Joseph gives the following account of the Fort Phil. Kearny massacre, derived by commissioners from some Crow Indians, who received it from the Sioux: The Sioux drew our men out of the Fort and killed all. Our men fought like tigers, and would not have been mastered so easily, had they not kept so close together. The combatants were so mixed up that the Indians killed several of their own party with arrows. The bravery of our bugler was much admired; he killed several Indians by beating them on the head with his bugle. Sixteen Sioux and four Cheyennes were killed on the field, but after encamping, ninety-four died of wounds. Three hundred others are wounded, half of whom are expected to die. They mention one man on a white horse who cut off Indians' heads with a single stroke of his sabre; also, when reinforcements left the Fort for the battle ground, they (the Indians) left, having had enough fighting. Twenty-two hundred Indians were engaged in the fight, and the strength of the concentrated tribes is reported at 2,800 lodges, moving towards the Yellowstone and Missouri rivers.

Washington, March 26.

In the Senate, the amendment to the Organic Act of Colorado passed.

The bill fixing the 1st of June as the day on which the Bankrupt Bill will go into operation, was referred to the Judiciary Committee.

The Vice President has submitted a communication from the Secretary of the Interior, stating that the department is unadvised as to any suspension of work on the Union Pacific Railroad.

Sumner introduced a bill to enforce several provisions of the Constitution abolishing slavery and declaring the immunities of citizens, and guaranteeing a Republican form of government by securing the elective franchise to colored citizens. It also provides that every citizen shall have the right to vote in every State and Territory at all elections for Federal, State or local officers of every kind, on equal terms, without regard to race or color, all State or Territorial Constitutions or laws to the contrary notwithstanding. Ordered to lie on the table, and be printed.

Trumbull reported House resolution for adjournment, with an amendment as a substitute. The Judiciary Committee recommend in lieu of the House resolution that the two Houses adjourn Thursday next, at noon. Adopted, 21 to 17.

Senate adjourned.

New York, March 26.

A *Tribune* Crete letter, of February 24th, says the insurgents have been successful in two important battles, and the whole Island is again in arms. The people are more determined than ever to be satisfied with nothing short of annexation to Greece.

New York, March 26.

A terrible storm prevailed on the Atlantic during the latter part of last week. The lighthouse and cottage were inundated to about 70 feet, and the building carried away to sea. Water covered the town on Atlantic Avenue as far as the United States Hotel and Railroad Depot. All the cedar trees opposite the lighthouse were carried away. Such a storm has not raged in the vicinity for twenty or thirty years.

D. Appleton & Co. have given a hundred thousand books to Peabody and the Trustees, for use in the South.

New York, March 26.

The Quarantine Commissioners are making extensive preparations in view of anticipated cholera from Europe next summer. The West Bank building cannot possibly be ready for use before midsummer. The hulk of the steamship Illinois is now stationed in the Lower Bay, which receives all sick persons brought into port on shipboard. The Hospital Ship Falcon will soon be sent down the bay. Application has been made to the Secretary of War for the use of the steamship Empire City.

New York, March 26.

A *Commercial* special says, the Senate Judiciary Committee will probably report in favor of Senator Wilson's report in favor of the trial or release on parole of Jeff. Davis. It is expected that Congress will adopt the resolution, and Jeff. Davis be released on personal parole in a week.

Thurlow Weed appears in print to-day as leading editor of the *Commercial Advertiser*.

Washington, March 26.

In the House, Lawrence, of the Judiciary Committee, reported a resolution directing the Secretary of the Interior to withhold the issuing of patents affecting the title of ranches and ranche grants in California. Passed.

The Speaker presented a letter from the Clerk of the House, stating that he had furnished the Secretary of State with the supplementary Reconstruction Act, and had been informed by the Secretary that he would promulgate it.

Boutwell, from the Judiciary Committee, reported back Donnelly's bill in reference to the payment of members, with a substitute, providing that Senators, members and Delegates, after having taken the oath, shall be entitled to receive their compensation monthly. The substitute was agreed to, and the bill passed.

Boutwell also reported the bill making the office of Solicitor of the Court of Claims Bureau in the office of the Attorney General, which was passed.

Senate amendment to House bill to increase the force in the Patent office, concurred in.

Senate amendment to House bill relative to claims of Northern creditors, referred to the Judiciary Committee. Adjourned.

New York, March 27.

The Legislative Committee, charged with the investigation of the affairs of the Pacific Steamship Company, held a meeting and heard testimony on the subject yesterday. The President and one or two directors of the company and several others (stockholders) testified. Among them was Leonard W. Jerome, who stated that he had lost \$800,000 in [illegible] stock last February. The President stated that the company was worth \$37,000,000.

The *Herald's* Montgomery, Alabama, special says a reconstruction meeting, of both colors, was held there Monday night. Resolutions favoring the faithful concurrence in the requirements of the Military bill, eulogizing colored men who are entitled to equality, and calling for a State Convention, were adopted. Ex-rebel officers addressed the meeting. Governor Patton was among the Vice Presidents.

General Sheridan's order assuming command of the 5th Military District, comprising Louisiana and Texas, has been published. He declares the governments of those States to be provisional only, and proposes to make no removals from office unless the present incumbents impede the carrying out of the provisions of the law.

Brevet Major General Ingall, who was efficient Chief clerk of the Quartermaster of the Army of the Potomac, has been ordered to assume the duties of Chief Quartermaster at this city. General Van Vlet goes to Baltimore in a similar capacity.

A *Times'* special says the report that General Grant made suggestions, yesterday, to members of Congress relative to adjournment, while he was upon the floor of the House, is without foundation in fact, as I am authoritatively informed. Congress having failed to agree upon a day of adjournment, it becomes the duty of the President, under the Constitution, to order an adjournment, fixing the day himself.

The *Tribune's* special says the Senate Committee have reported against the confirmation of Blair as Minister to Austria.

It is stated that the Senate Judiciary Committee reported in favor of adjourning until December because the Southern State Courts would declare the Reconstruction Act unconstitutional, and the Act in that event will not be operative for many months, or until it shall be finally decided by the Supreme Court; and that no decision can be made sooner than the regular meeting of Congress in December, so that no advantage would issue from an earlier meeting.

MONEY ORDER POST OFFICES.—The following is the full list of the additional Money-order Post Offices established on this coast by the Post Office Department, as published in the Sacramento *Union*:

California—Auburn, Benicia, Camptonville, Chico, Columbia, Colusa, Downieville, Dutch Flat, Eureka, Folsom City, Forest Hill, Gibsonville, Gilroy, Grass Valley, Healdsburg, Ione Valley, Jackson, Laporte, Mariposa, Markleeville, Martinez, Mokelumne Hill, Monterey, Napa City, Oakland, Oroville, Petaluma, Placerville, Red Bluff, San Rafael, Santa Cruz, Santa Rosa, Shasta, Suisun City, Susanville, Vacaville, Vallejo, Visalia, Watsonville, Weaverville, Wilmington and Yreka.

Idaho Territory—Boise City, Idaho City, and Ruby City.

Montana Territory—Helena and Virginia City.

Oregon—Albany, Auburn, Canyon City, Corvallis, Dallas, Eugene City, Jacksonville, Lafayette, La Grande, Oregon City, Roseburgh, Salem, Dalles, and Umatilla.

Washington Territory—Olympia, Stellacoom City, Vancouver and Walla Walla.

To the above may be added the Post Office in Salt Lake City.

INTENSITY OF COLD IN SPITZBERGEN.—No description can give an adequate idea of the intense rigor of the six months Winter in this part of the world. Stones crack with the noise of thunder; in a crowded hut the breath of its occupants will fall in flakes of snow; wine and spirits turn to ice; the snow burns like caustic; if iron touches the flesh it brings the flesh away with it; the soles of your stockings may be burnt off your feet before you feel the slightest warmth from the fire; linen taken out of boiling water instantly stiffens to the consistency of a wooden board, and heated stones will not prevent the sheets of the bed from freezing. If these are effects of the climate with an air-tight fire-warmed, crowded hut, what must they be among the dark, storm-lashed mountain peads outside.

TOWN DESTROYED.—A dispatch from Aurora to the Virginia *Enterprise*, dated the 16th, says: "By last evening's mail we received the particulars of a great snow slide which occurred at the town of Kearsarge at 3 o'clock on the afternoon of March 1st. Nine houses were swept away, and Mrs. C. W. Miller, a most estimable lady, lately a resident of Aurora, was instantly killed. Her husband was buried in the ruins with her, but was dug out alive, though so badly crushed and bruised as to be unable to stand up. He is recovering slowly. Fortunately only five persons were stopping at Kearsarge at the time, else the loss of life would have been greater. The deep snow and intensely cold weather had stopped all work in the mines and driven most of the inhabitants down to the town of Independence, in the valley."

INDIAN TROUBLES.—The Atchison *Champion*, of March 7th, says: "On Friday last the Commissioner of Indian Affairs concluded a treaty with the Cherokee Indians in Kansas, modifying the treaty of July 6th, so as to allow the tribe to sell what is known as the Neutral Lands, comprising about 800,000 acres, to the Atlantic and Pacific Railroad Company. On Saturday a treaty was entered into with the Shawnees of Kansas, in which provision was made to remove them into the Indian country, as had been made with all the Kansas Indians for their removal."

MATURE.—Old Roger was visiting a friend who had a remarkably fine little girl about three years old, famous for her smart sayings. As usual, she was shown off before our esteemed friend. "What is papa?" said the "parient," in order to draw out the precocious child. "Papa's a humbug," said the juvenile. "I declare," said Old Roger, "I never in my life saw so young a child with so mature a judgment."

THE notorious Colonel Titus, of Kansas and bushwhacking reputation, attempted lately to drive a harpoon through a revenue officer when in the discharge of his duty, was arrested and turned over to the United States Marshal at St. Augustine, Florida.

More of Pahranagat.

As our columns are devoted to the dissemination of news, they are ever open to both sides of any question in which the public are interested; we therefore insert the following communication from a miner, who desires that the true state of the mines in Pahranagat may be known and with an apparent desire to warn the unwary from falling into a trap which has so frequently deterred the investment of capital in a right direction by the expose of what is known as "wild cat" schemes.

PAHRANAGAT, March 15th, 1867.

EDITOR VEDETTE:—Having noticed a number of extracts in your paper from Pahranagat correspondents, and believing some of them impositions practiced on a bold and truthful journal, as well as on a too credulous community at large, I am constrained to give you some facts in relation to this country, without commenting upon a communication copied into your paper from an Eastern mining journal some time last fall, wherein it was stated that there was "ore enough on the surface here to employ one thousand stamps for years," that the writer "expected to be taken out and shipping ore to Europe next Spring, that would pay from one to five thousand dollars per ton;" that "among his own locations were the richest mines ever found." As these statements are too palpably absurd to require refutation, I will simply refer to an extract from a private letter in your Weekly of the 2d inst., in which the "Sebastopol," the "Mary Ann" and other claims are highly lauded, and the five stamp mill represented to have produced one thousand pounds of silver in one week, etc. Now the truth is the lodes referred to have not been touched in the last three months, nor is any one acquainted with the ore in either lode eight feet below the surface of the ground. As to the mill, the entire gross proceeds from the same since it first started to the present time *has not been sufficient to pay the salary of one man who superintends the working of the ore.* This *may* not be attributable to the lack of ore in the mine; the mill is a piece of botch work and the working of the mine no less so, as all may judge, when it is known that the mine (Illinois) has been worked six months by not less than an average of eight men daily, and yet not one ton of ore has been raised from a depth of thirty feet or taken from a tunnel that depth from the surface. The fact is the mines are not managed by skillful men, or else they are restrained from doing the work properly by their employers, who in all cases in this district know very little about conducting mining operations. It is now two years since these mines were discovered, and yet no lode has been prospected to the depth of fifty feet in one, and not more than a half dozen to the depth of twenty-five feet. The fault is in mismanagement; therefore we know but little more of the mines than at the time of their discovery. I am led to make this statement for the following reasons: First, the "permission to copy from a private letter" is a cheap way for "private" individuals to advertise their "feet," which will not recommend themselves; and to say the least, not profitable to the publishers who are likely to receive the execrations of a majority of the community acquainted with the real value of the mines in question. Second, these statements induce hundreds to go to the locality named—where there may be three laborers to one employed as in this district—only to be deceived, loose their all and curse the authors and publishers for the wrong inflicted. Third, it works an injury to the public, and a prejudice against the best class of mines, to which those herein named *may* belong when developed, and the inducement of capital to work the same. We doubtless have very valuable mines here, but as in all localities where rich mines ARE found the "wild cat feet" are the first thrust into the market in order to effect a sale early, upon the reputation of the better mines. Out of some 1,700 claims located in this district, it will be fortunate if one in a hundred proves rich to the owners, and as many more bearly remunerative, we would then have perhaps the richest locality of the same extent in the State. Parties desirous of investing in Pahranagat mines will do well to first visit this place and judge for themselves, as there are a number of fine repasts cooking for the unwary out of the valuless mines of which I may hereafter give you an inkling. MINER.

EVADING THE MARRIAGE LAW.—The Vancouver *Register* says: "An ingenious mode of evading the marriage law has been devised in one of the border counties of this Territory. It is well known that no girl under eighteen years of age can get married unless she obtain the written consent of her parents or guardians. The Oregon marriage law also being very stringent, these lasses under age come from Oregon to this Territory, and some friend makes application to the Probate Court for the appointment of a guardian. The girl, if over fourteen, has the right to nominate her own guardian, and she instanter chooses her friend for that position. Then, as guardian, he gives consent to the marriage of his ward, and the happy couple go back to Webfoot rejoicing. Upon the marriage of the ward, she, of course, is considered of age, and the matter of the guardianship is settled by the Probate Court. About forty dollars is considered the bill of expenses."

THE Leavenworth *Times* of the 9th says: "A rumor prevails in this city, and is believed by Plainsmen, that a Government supply train had been attacked, on the 20th of February, by Indians, between Forts Laramie and Sedgewick, at Mud Springs, and some nineteen killed; among them Major Evans, of Ohio. The wagons were burned, and their contents seized. These reports we copy with reluctance; if false, they do harm; if true, they should be given to obviate exaggeration, and check false rumor, we suggest, as we have suggested before, often, that the military shall make official statements of all Indian difficulties; for if that were done we should get the truth, and avoid the evils to which we have referred."

Masonic Notice.—The stated communications of Wasatch Lodge, A. F. and A. M., U. D., are held at their Hall on the second and fourth Fridays of each month.

Sojourning and visiting brethren are invited to attend. By order.

This Company having greatly enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

The Tariff of Charges

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold Bars.

One-eighth of one per cent. (heretofore a quarter) for all amounts over \$1,600, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Silver Bars.

Two dollars for the gold contained, up to \$1,600, and one-eighth of one per cent. for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

For Refining Deposits made for Coin or Fine Bars.

On bullion under 300 parts gold, 2 cents per ounce.
On bullion from 300½@600 parts gold, 4 cents per ounce.
On bullion from 600½@750 parts gold, 6 cents per ounce.
On bullion from 750½@949½ parts gold, 8 cents per ounce.
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

For Coining Gold.

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

Returns in Coin Made in Forty-Eight Hours.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

Charges at U. S. Branch Mint.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution:

For refining bullion under 300 parts gold, 3 cents per ounce.

For refining bullion from 300½@600 parts gold, 5 cents per ounce.

For refining bullion from 600½@750 parts gold, 7 cents per ounce.

For refining bullion from 750½@830 parts gold, 11 cents per ounce.

For refining bullion from 830½@949½ parts gold, 14 cents per ounce.

The charge for coinage is half of one per cent., and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:

830 par to equal Mint return, at refining charge of 14 cents.

845 par to equal Mint return, at refining charge of 11 cents.

865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. [mr21-3m-is

Local and Miscellaneous.

TO ADVERTISERS.—The VEDETTE is the pioneer daily newspaper of Utah. Its extensive circulation in every mining camp and city of Montana and Idaho, (in which it gives the telegraphic despatches a whole week ahead of the Pacific papers,) makes it the most advantageous medium for advertising in these four [illegible] Territories.

THE SECRET EXPLAINED.—For some time past there has been a general complaint by our citizens of the non-receipt of letters by the eastern mails, but the disappointment was [illegible]able, from the reports of the frequent storms and consequent bad roads, which impeded travel to a great extent; but when the stages commenced to arrive regularly and still bring no mails from the Atlantic States, forbearance ceased to become a virtue. Important letters have been forwarded in sacks, tied with strings, that we are informed by passengers become open from the frequent necessity of loading and unloading the stages through the heavy drifts of snow. Yet, forsooth, the leather bags, with locks, are reserved for the transportation of books and public documents, forwarded by our Representative in Congress, and which never meet the public eye, but are reserved to stock some official library, from which our citizens receive no benefit. This is scandalous, and needs reformation. No blame is attached to any one connected with the postal arrangements in this Territory, but the fault is in the eastern conductors of the mail line. It is an outrage on the rights of citizens in this Territory, and we shall continue to call loudly for redress if this practice is continued. We noticed, a day or two since, in the Omaha and Denver papers, the annoucement of the receipt of stage loads of mail bags, but all containing books for Salt Lake City. Complaints are rife all over the country, and it is high time that the Department should remedy the evil.

SUSPICIOUS.—The Denver *Daily* says: "Black, one of the persons who is supposed to have murdered a man named Bicking, a resident of Denver, between Denver and Salt Lake, in October last, and who was captured in February and placed in confinement together with his confederate, Stickney, has been set at liberty on a writ of habeas curpus, and placed under bonds of $300 to appear as a witness against Stickney. It will be remembered that Black made a statement after his capture, which amounted to a confession of the murder. The action of Judge Gary, who granted the writ, is severely denounced by the Chicago *Tribune*, which paper calls for an investigation. It says that Black's father is worth about $70,000, and intimates that money has something to do in obtaining the release."

HEAVY INTEREST.—As an evidence of the scarcity of money, and the strong desire to get possession of it, we note an incident of which we were an eye witness: A citizen of Salt Lake City borrowed of a friend two silver half dollars, yesterday morning, for the purpose of hearing the jingling music during the day, (the borrower alleging that he had been so long without money he wished to be gratified with a little,) and for its use he paid ten cents. We happened to be present when the money was returned, and the interest paid. Hard times, when one pays ten per cent. per day. It's music dearly bought.

STREET CROSSINGS.—We think it is about time that some portion of the money paid into the City Treasury should be devoted to the repairing of our street crossings, so that the heavy tax-payer might walk from his residence to his place of business without being mired. The sidewalks are in a terrible condition. From the fact that every department of business is more heavily taxed here than in any other city, the question naturally arises: "Where does the money go to?"

BAD WEATHER.—The weather still continues unpropitious for the merchants who are looking forward for spring trade. One day of sunshine to six of snow, that melts as soon as fallen, and which keeps the roads in a condition that renders traveling a disagreeable task. It is to be hoped that, before Conference week, there will be improvement sufficient to render the roads passable, and give an opportunity for our country friends of visiting the city and purchasing supplies.

GRASSHOPPERS.—The general topic of conversation yesterday, was the report of the eggs of grasshoppers having made their appearance in Cache Valley, in such quantities as to threaten the destruction of the grain crop this season. It is to be hoped that the fears of the farmers will not be realized, and that the continuance of cold weather will kill them off e'er they reach maturity.

MORE OF SALMON.—A telegram was received yesterday from Virginia, Montana, by a gentleman of this city, which was the substance of a letter sent from Lemhi, and contains a corroboration of the most flattering news in relation to Salmon river, and concludes with "Come sure; come at once, it is rich."

OFF FOR SALMON.—Mr. Showell's train for Salmon River and the adjacent mines, starts this morning. The train consists of six wagons, all laden with an assortment of goods necessary for the use of the miners in that region.

Arrivals and Departures.

From the East—March 27—Lewis McMurtal & lady, J. P. Patkison, W. H. Parkison, G. Fiero.

From the North—March 27—J. H. Breeze, [illegible] C. Snell.

From the West—March 27—Frank Bird, [illegible] W. Robins.

To the North—March 27—Mrs. Byris, Miss Dougherty, L. Burns, Wm. H. Taylor, D. M. Robbins.

BEAUTIFUL SENTIMENT.—When the Hindoo priest is about to baptize an infant he utters the following beautiful sentiment: "Little baby, thou enterest the world weeping, while all around thee smile; contrive so to live that you may depart in smiles, while all around you weep."

THE Denver [illegible] says: "Colonel [illegible] light has been appointed and confirmed Revenue Collector at [illegible]. Wonder if he can't now meet his little indebtedness left [illegible]."

THE following scene is said to have occurred at a telegraph office in this country:

Fond wife—(To telegraph operator) Oh, sir! I want to send a kiss to my husband in Liverpool. How can I do it?

Obliging Operator—Easiest thing in the world, ma'am. You've got to give it to me with ten dollars, and I'll transmit it right away.

Fond Wife—If that's the case, the directors ought to put much younger and handsomer men in your position.

(Operator's indignation is great.)

That last remark made by the "fond wife" is conclusive evidence that it did not occur in the Denver office.—Denver *Daily*.

We are sure no lady would have made that remark at the office in this city.

THE PHIL. KEARNY COMMISSION.—The Commission, having taken considerable testimany concerning the Phil. Kearny massacre, are still in this city. They have ascertained a good many facts bearing upon the military situation prior to, and at the time of the calamity to the brave Fetterman and his command. It is in proof, we believe, that, to escape barbarous torture, the surviving officers shot each other through the head when all hope of succor had fled on that fatal day.—Omaha Herald, March 9th.

The Place of the Exposition.

In a late number of Harper's Illustrated News, we find the following items in relation to the Grand Palace of the Paris Exposition:

The grand palace stands in the Champ de Mars, an immense field 1,000 yards long by 700 feet broad. Harper's "Hand-book for Europe and the East," describes it as formerly devoted to horseracing and military reviews, and until the present buildings were begun it was the site of the Parisian Hippodrome. In 1830 Louis Philippe there distributed the colors to the National Guard; and later, in 1852, the present Napoleon gave the eagles to the army, when there were over 60,000 troops present on parade. The palace will be oval in shape. The following are the chief diminsions of the building and of the avenues by which it is approached: From the Bridge of Jena, across the river Seine, to the commencement of the covered promenade is 315 feet. This promenade faces the Seine, and is 820 feet long. At the end of this promenade stands the grand entrance to the palace, from which to the edge of the central garden the distance is 526 feet. This garden is also 536 feet long. The distance between the central garden and the side facing the Ecole Militaire is likewise 536 feet. The length of the covered promenade leading to the Ecole Militaire is 712 feet. The extreme length of the building is 1,608 feet, and its extreme breadth is 500 feet. The area covered by the palace and its accessories, including the surrounding park and covered promenades, is 3,153 feet in length by about 1,500 feet in breadth. The space allotted to the productions of each country is as follows, in number of square feet:

France and colonies, 200,162; Holland and colonies, 6,560; Belgium, 25,786; Prussia, 24,699; Other German States, 24,699; Austria, 24,699; Switzerland, 7,921; Denmark, 2,132; Sweden and Norway, 6,860; Spain and colonies, 6,378; Portugal and colonies, 3,720; Greece, 2,130; Danubian Principalities, 2,130; Papal States, 2,130; Italy, 12,756; Russia, 9,564; Turkey, 4,252; Persia and Central Asia, 2,130; China, Japan and South Asia, 2,657; Africa and Oceanica, 2,657; Mexico and Central America, 2,136; Republics of South America, 2,657; Brazil, 2,173; United States, 10,978; Reserved space, 4,510; Great Britain and colonies, 75,467.

This allotted space is distributed around the central garden. Mr. Hardy, a Frenchman by birth and education, wasthe architect of the place, and the chief engineer was Mr. Krantz, formerly chief engineer of the Orleans railway, who was appointed by the French Government without any kind of competition. It seems there was no general contractor for the entire work, but each particular department was let to separate contractors. The labor of erecting the building has been very great. The grounds have been greatly improved, and the former open field of the Champ de Mars has been converted into a beautiful park, in the center of which stands the Industrial Palace.

PETROLEUM.—Last week we referred to the success in obtaining petroleum in Ray county, Missouri, and yesterday we met Mr. Sanders of this city, who kindly furnished us with particulars.

The successful well is on what is known as the Bagess farm, now owned by McPike. A small portion of the premises was leased by a Mr. Ralston, who, after surmounting many difficulties, finally obtained oil at about four hundred and fifty feet.

The sample of oil in possession of Mr. Sanders, is of the very best lubricating variety, and is obtained at the rate of three hundred gallons in twenty-four hours.

This has produced an intense excitement in that region, as well it may; for, as we previously stated, the surface indications are as numerous as they were in Pennsylvania, previous to the development of that great interest.—Leavenworth Times, March 7th.

A STOCKTONIAN AT LA PAZ.—George A. McKenzie, formerly a resident of this city, writes to Mr. Daly, from La Paz, under date of February 3, 1867. He writes cheeringly of his prospects in that part of the world; greatly admires the climate, but entertains rather a poor opinion of the inhabitants. He says that where water can be had the products of the soil are extraordinarily abundant; and as for fruit, it is of the very best quality, cheap and plentiful. Stockton Independent.

HUMBOLDT LAKE.—The Humboldt Register of March 2d says the centre of attraction for the past week has been the newly discovered mines near Humboldt Lake, a short distance west of Captain Parker's Station. The mines are spoken of in glowing terms.

KILLED.—J. M. Tice, of San Francisco, was thrown from his buggy, in Alameda county, on Sunday, the 10th inst., and died the next day.

DENVER, COLORADO,

Is not the 'Largest," but the MOST ELEGANT CLOTHING HOUSE in Colorado.

And from the East and to the West,
Are gentlemen dressed
In suits from Anker's Hall;
And none, as yet, was heard to regret,
That he ever gave him a call.
He kindly said,
And nothing concealed,
Regarding the wear of his clothes,
But speaks with the truth,
To man and to youth,
Which each of his customers knows.
Hence, friends, one and all,
Go to Anker's Hall,
Walk boldly—don't cowardly creep,
For there you'll find,
All obliging and kind,
With Clothing tremendously cheap.

The citizens of Utah, Idaho and Montana are at all times cordially invited to call at ANCHOR'S POPULAR CLOTHING HOUSE, when in Denver, and examine his most Elegant and Tasteful Stock of Goods which will be sold at Prices Guaranteed Lower than the Lowest.
